The Chapel of the Holy Cross welcomes several million Pilgrims and tourists every year. It is a place of great beauty and peace.
Built to a twin pinnacled spur, about 250 feet high, jutting out a thousand foot rock wall, “solid as the rock of Peter” the building of the Chapel was completed in April, 1956.

2 **Cathedral Rock**
Cathedral Rock is a striking red-sandstone butte just southwest of Sedona, Arizona. With a summit elevation of about 4,967?ft, it’s one of the most photographed geological features in the region, formed from Permian-age Schnebly Hill sandstone
